Dress cOdes

Dress cOdes is the third and last exhibition of the season

CuriOsité organized by matériO. Discover innovative textiles, understand the intelligence and creativity behind those experimental and high tech or high touch textiles until 29th July 2006.

Applications are multiple: interior design, aerospace products conceived by Grado Zero Espace and the European Spatial Agency, extreme sports articles, vegetal and electroluminescent fibers with unusual uses... With the participation of the Swedish school of Textiles.

27 June 2006
